INTRODUCING OUR NEW PRODUCT LINE!

710  
DAB  
OIL

Nestled against the east slopes of the cascade mountain range, 710 is where it all began—the homestead to Antoine Creek Farms. As if it were destiny, we are now in production of Butane Hash Oil (BHO), so it was only fitting that we honor it with the name 710 Dab Oil.

To our outdoor and indoor cultivation we've added the fine-tuned artistry of cannabis extraction, in a proprietary process that begins with our finest flower and ends with rich, complex BHOs. Our delicate Blond Shatters are as warm and beautiful as compressed sunshine, low in PPMs but rich in terpenes for no loss in THC entourage effect. The same goes for our Tommy Chong concentrates. Adventurous connoisseurs can ready their rigs for some Tommy Chong fun as they fire up his unique blended shatter built on our farm's flower power and top-notch extraction techniques.

At Antoine Creek Farms we are committed to integrated pest management and best organic practices. Analytical tests found no detectable pesticide residue in our products!

Our beautiful deep amber oil is produced from quality flower.  
Packaged in silicone-lined, screw-top concentrate containers,  
and sealed in branded packaging of your choice.

“Whoever said Orange is the new Black was seriously deranged.” We couldn’t agree more – our Black Label Selections this year are unprecedented. Dress up for a night on the town or wear your fanciest silk and slippers at home but in either case, treat yourself right, well and good. Seriously, sometimes it’s worth a minute to pamper yourself or a friend (or both).

Look, everyone in the world grows the “greatest weed” – *we know this to be true* because we *loved it all* – however, we love this selection more! Imagine a nineteenth century footman bringing you these strains to try one at a time - served on a silver platter. You deserve nothing less! This selection is exclusive to our black label this year.

8 strains\* specially-selected for our Mender gift box. Each bag includes a collectible Trippy card inside!

Our Mender are strains selected for their reputations in the era of medical marijuana. Several of the strains are high in CBD – the lesser known counterpart of THC – thought by many to have medicinal qualities. *Harlequin* is the strain that famous *Charlotte's Web* comes from (featured on CNN with Sanjay Gupta). *Old Toby* is a high CBD strain developed in the Great Pacific Northwest and is actually mentioned by name in the recent *Lord of the Rings* movie. "Black 84" is rumored to have been stolen from the labs of the University of Washington Medical Center in 1984. This strain is rumored to even satiate the Ducks from Eugene, Oregon. Other classics included along with a special edition strain guide. Be well.

8 strains\* specially-selected for our AC Heirloom Tin Set.

Each bag includes a collectible Trippy card inside!

**Tin 1: Antoine Creek Heirlooms (AC)** Antoine Creek has a long history of weed growing—dating back to the 1970s. In fact, one close neighbor got busted in the early 80's after more than a decade of outdoor cultivation. As fate would have it, we knew a guy, who knew a guy, that had a friend, who's cousin had some of the Antoine Creek heirloom seeds! We give to the world three Antoine Creek Farm originals—Black Bear, Cougar and Moose (all animals who share our precious valley).

**Tin 2: Old School—Doborian(sp) with Flux Capacitor (UFO)** Back to school with the "Old School"—paraphrased from Douglas Adams, "when men were men, women were women and small furry creatures from Alpha-Centauri were in fact just that". We are still not sure what that really means but we know the nostalgia of weed from decades past still makes us giggle. Back in the day, high THC was not the mantra, instead "good times" was the call. We invite everyone over to get on our time traveling strains—like a venerable Dolorian—turn up the flux capacitor and call it what it is... "all good!"

**Tin 3: Originals—It's a Good Time to Be You! (AC)** Are you original? Picasso said, "Good Artists copy. Great Artists steal." Our lawyer(s) have advised us not to comment on the super-secret proprietary weeds we have been growing in the lab but even Dr. Frankenstein would be proud! Please... young Frankenstein... Walk this way. Don't worry—you are original and yes we stand on the shoulders of the giants that have walked before us. Needless to say, we have some super-secret fun to share with you and more is on the way!

**Tin 4: Classics of the Recent Past (Tribute to Mediner)** No matter how new-fangled we get in the era of Gay-Marriage and Legal Weed (yes we voted affirmatively for them at the same time) we must admit we will always have a place in our heart not just for the heirloom, not just for the new original strains but also for the classic crosses we have all come to know and love. Whether you knew these classics as a first kiss or second gay marriage (oh my) we pay tribute to the good memories. Remember always, that even a broken heart has an upside: you end up with more pieces to give away... To the classic weeds and loves of our lives!

8 strains\* specially-selected for our Rainbow UFO gift box. Each bag includes a collectible Trippy card inside!

Listen up: It's a "New kind of bag!" This will likely be the most fun and popular of all our brands. We like to think it still has a touch of class but we are trying to be true to the alien heritage of the cannabis plant. Look for color and secret messages! If it gets too intense - get some tinfoil and make a hat - it really does help! This is also a "Hate Free Zone". Inspired by the late great Kurt Cobain who famously said in the 1990s: "At this point I have a request for our fans. If any of you in any way hate homosexuals, people of different color, or women, please do this one favor for us -- leave us alone! Don't come to our shows and don't buy our records." - Kurt. At Antoine Creek Farms we feel the same (and we mean it).
